Strength

Airtightness

High
Temperature
Resistance

Applications

- Precious Metals
- Electronic Ceramics
- Magnetic Material
- Pigment Coating
- Graphene

Used for various brands of experimental drum ball mills, tank mills, ball mills, etc. It is an ultra-fine grinding and mixing equipment used in laboratories and small batch production

Features

- Smooth appearance, high hardness, good toughness, and impact resistance
- Resistant to various acids (such as acetone, alcohol)
- Non polluting products, high grinding efficiency

Size

NO.	Capacity (L)	Specification (mm)
1	0.5	80*140
2	1	128*182
3	1.5	145*182
4	2	155*203
5	3	180*238
6	5	200*254
7	10	245*340
